**Chapter 5**

**ENGINEERED WOOD PRODUCTS**

---

---

Listing by BCAR

Engineered wood products are listed under a service designated as *Listing by Building Components Acceptance Report (BCAR)*. Engineered wood products include laminated veneer lumber (LVL), parallel strand lumber (PSL), laminated strand lumber (LSL), wood rimboard, wood I-joists and glue-laminated beams. The description of product(s) or construction and information are referenced in the current BCAR. The PFS certification mark and/or IAS AA-652 identified on the PFS stamp on the said product(s) is evidence that the manufacturer is under contract for trademarking and follow-up inspection service.

LVL, PSL and LSL are evaluated for conformance under ASTM D 5456, *Standard Specification for Evaluation of Structural Component Lumber Products*. Wood rimboard is also evaluated for conformance to ASTM D 5456 (if design values are published). Wood I-joists are evaluated for conformance under ASTM D 5055, *Standard Specification for Establishing and Monitoring Structural Capacities of Prefabricated Wood I-Joists*. Glue-Laminated Beams are tested for conformance with ANSI/AITC Standard A190.1-1993 for *Structural Glue-Laminated Timber*.

---

---

*Note: Where a superscript number 1, 2 or 3 (<sup>1,2,3</sup>) appears after the client's listing in the following pages, please refer to Page 2 of the Table of Contents for a written explanation.*
